EDUCATION

Bachelor of Science – Neuroscience (Psychology track)

June 2015

Maryville College – Maryville, TN
3.4/4.0

Thesis: *The Effects of Music Preference on Memory* – This study was conducted in order to explore the effects music could have on cognitive performance, particularly long-term memory. Participants were asked to perform a cognitive task either with preferred music, with music that they found distasteful, or without music. The accuracy of recall of the items featured in the memory task were recorded as the dependent variable.

Thesis Advisor: Dr. Lori Schmied, Professor of Psychology, Coordinator of Neurosciences at Maryville College

HONORS

- Music Scholarship, Dean’s Scholarship, Tennessee HOPE Lottery Scholarship
- Dean’s List (Fall 2011, Spring 2013, Fall 2014)
